Melissa Stuhff (Director) is in her second year at BHS, but in her 8th teaching theatre and directing in Belton. She graduated from Hardin-Simmons University with a Bachelor of Arts in Theatre and Post-Graduate Education Certification. While at Hardin-Simmons, she acted, stage-managed, designed lights, directed and even designed a costume or two. She was awarded as a Best Main Stage Student Director with her first ever full length production of Little Women and hasn't looked back since. Ms. Stuhff is a member of the International Thespian Society, Alpha Psi Omega, International Theatre Honor Society and Sigma Alpha Iota, Women's Music Fraternity. Before teaching, Ms. Stuhff stage managed at several theaters in Dallas and loved every crazy minute. In her "free time" Ms. Stuhff enjoys cross stitching, making random jewelry and a little dancing. She would like to thank Randal for being the best friend and a constant sounding board; Mel, for being an incredible partner and putting up with her crazy ideas but most importantly, her fantastic students who have trusted her and who have already taught her so much! "Vita Brevis, Ars Longa"

Melissa Edwards (Technical Director) joined the BHS Theatre Department in 2013. She graduated from the University of Texas at Austin with a BA in Theatre and Dance - Scenic Technology. After college she took a job at the Studio Theatre in Washington DC where she served as one of three scenic carpenters building 9-10 shows a season. When she returned to Texas she continued her woodworking skills building cabinets and furniture with the WIM Group in East Austin. Every summer she attends Tal's Theatre Camp at Southwestern University where she serves as the camp's Production Technical Director. The musicals in which she has served as Technical Director at Belton HS include Guys and Dolls, Little Shop of Horrors, Beauty and the Beast, The Drowsy Chaperone and South Pacific. She has a wide range of interests and talents but her favorite pastimes include bowling, shopping for shoes/tools, and finding how-to videos on YouTube. She would also like to thank her husband Daniel for supporting her love of musicals and for being her first opinion, always. I love you.

Tonya Lovorn (Music Director) is in her second year as the head choir director at Belton High School. She has been a music educator for 11 years, previously teaching at Temple High School and China Spring High School. Mrs. Lovorn currently directs A Cappella Choir, Bel Canto Choir, Men's Choir, and Madrigal. Since the first time Rachel performed on stage, she knew that dancing was her passion. Truly called to dance education and choreography, Rachel often travels across the country attending dance conventions, tap dance festivals, and assisting famous choreographers. Rachel manages her busy high school schedule as an honor roll student and a member of two of her school choirs, A Cappella and Madrigal. For her first three years of high school, she was a member of the Belton High School Magic Belles, where she was a Social Officer and Choreographer/Captain of the Hip Hop Company. While she is grateful for her years as a Magic Belle, she is spending her final year of high school building her resumé and focusing on her professional career. Next fall, Rachel will be a Business Administration major at Texas A&M University in College Station, TX and will continue to choreograph for surrounding studios in addition to her home studio. Rachel gives all of the glory to God for her accomplishments and loves to share her passion for dance on the stage and behind the curtain.

WHAT IS ABA?

Applied behavior analysis is the process of systematically applying interventions based upon the principles of learning theory to improve socially significant behaviors to a meaningful degree, and to demonstrate that the interventions employed are responsible for the improvement in behavior (Baer, Wolf & Risley, 1968; Sulzer-Azaroff & Mayer, 1991).

WHY ABA?

ABA is the only scientifically validated, data driven approach to intervention shown to be effective with a wide variety of behavioral disorders especially when applied to working with children with autism. ABA focuses on the reliable measurement and objective evaluation of observable behavior. Targeted skills are divided into small steps while learners are provided numerous opportunities to learn and generalize skills to a variety of settings. Positive reinforcement is used to shape desired behaviors and develop skills. Programming goals and reinforcers are customized to the strengths and needs of the individual learner. The goal of ABA intervention is to improve the quality of life of and enable the learner to function as independently and successfully as possible in society.
